

ECOSEA PROJECT
MEETING ANCONA 24-25 October 2013
STATE OF THE ART OF WP₃
3.2 – TECHNICAL-SCIENTIFIC ADRIATIC
ADVISORY BOARD FOR THE
MANAGEMENT OF MARINE RESOURCES
3.3-FISHGIS

Regione Autonoma Friuli Venezia Giulia

**Direzione centrale attività produttive, commercio, cooperazione,
risorse agricole e forestali**

Servizio caccia e risorse ittiche

General coordinating activity and management of wp3

FVG Region has carried out the general coordinating activity within WP3 with regard to AAB structure and internal rules (3.2) and also with regard to the organization and set-up of the FISH GIS (3.3) system in cooperation with ARPA FVG.

WP 3.2: A.A.B state of the art

- In quality of Wp coordinator, FVG Region has drawn up rules of procedures of the AAB, these have been submitted to all partners and will be approved during the present meeting.
- **Rules' main features**
- Composition: 3 scientific experts at national level + 9 experts representing either partners and/or local tables.
- A scientific coordinator appointed upon proposal of the Steering Committee. He/she will coordinate AAB activities and will be assisted by a Deputy Coordinator.
- **FVG Region will act as technical secretariat of the AAB**
- The AAB will not issue any binding- decision, but it will provide the S.C. with opinions and addresss various issues to SC, acting as a decision- making organ.
- AAB will meet simultaneously to SC (meetings to be held in Ancona, Zara, Bari, Rijeka, Bologna and Udine).

WP 3.2: A.A.B state of the art - Members

- **partners were asked** with three e-mails to **identify their representative/expert in the A.A.B.** and to convene/establish their own local table

Up to now, we have only had information about a few representatives (5 local + 1 national)

- **PARTNER'S REPRESENTATIVE**

- **Friuli Venezia Giulia: Giorgi Rossana**
Emilia-Romagna: Prioli Giuseppe
Veneto: to be identified

Marche: Laura Gagliardini Anibaldi

Puglia: Giovanni Ninivaggi

Abruzzo: to be identified

PGZ: to be identified

Zadar County : Lav Bavčević

Ministry Albania: to be identified

- **NATIONAL EXPERT**

Italy:

Corrado Piccinetti

Croatia:

To be identified

Albania:

To be identified

WP 3.2: A.A.B state of the art

- It is absolutely necessary that, in order to ensure the efficiency of the AAB , all PPS , who have not done it yet , inform FVG Region **NO LATER THAN 15th NOVEMBER 2013** about the name of their representative (local)
- Croatian and Albanian experts, at a national level, must be communicated by the same deadline, as well.
- Next meeting of the AAB will be held during the Zara Meeting (proposal February /March 2014) – date to be confirmed tomorrow
- Moreover all pps should start consultation- Activity with local tables and representatives of their scientific institutions (Universities, etc)

WP 3.2: A.A.B state of the art

- **AAB - LOCAL TABLE**

On 7 October 2013 FVG Region has chaired the **first local table** with operators of the fishery sector and of the scientific institutions (ARPA, University of Trieste , OGS Istituto Nazionale di Oceanografia e Geofisica Sperimentale *National Institute of Oceanography and Experimental Geophysics etc.*)

- During the meeting, **ECOSEA project was illustrated (focus on WP 3, 4 and 5)** and Operators were invited to propose and develop ideas / projects, concerning some pilot restocking actions, aimed at increasing biodiversity in our Region, especially in the perspective of a synergy with other financing tools and European funds such as FEP, regional laws, local plans of management.
- Next meeting will be held on 15/11/13.
- Also Regione Emilia-Romagna has held its first local table meeting on 24th september 2013, where ECOSEA project has been illustrated to operators of the field.

WP.3.2: Work in progress FVG

- A **Senior expert in Marine Biology** Dr. Rossana Giorgi has been appointed, Dr. Giorgi is currently working in the Environment policies Department of Region FVG and will soon start cooperating in the implementation of Ecosea Project.
- She **will also assume the role of FVG representative / expert A.A.B.**
- **Procurement procedure** for appointing a **junior technician** in the fishing sector **is ongoing**. This technician will help the service in the implementation of WP 3, 4 and 5.

WP3.3 FishGIS: State of the Art

Agreement with ARPA (no procurement procedure since Arpa is a regional Agency of Friuli Venezia Giulia) for wp 3 project implementation has been subscribed in these days.

By means of this agreement FVG coordinator has committed to ARPA FVG:

1. Technical-scientific support for the implementation of the 1 FISHGIS at all partners' level.
2. The operational coordination activity with regards to all actions to be developed at pps sites.

3. Technical-scientific support to FVG Region within the implementation of wp 4 e 5, round about nursery areas, hatcheries installation, restocking actions, models for a sustainable management of the Adriatic fishery.

➤ **Pietro ROSSIN (ARPA FVG) is the coordinator and contact point for the set up and implementation of Fish Gis at project level – (email: pietro.rossin@arpa.fvg.it, tel.+39 0400404000).**

WP3.3 FishGIS: state of the art

Arpa and FVG Region have drawn up the first proposal of data/themes for GIS and it will be approved during this meeting.

Partners were asked, also to identify their own expert / referent for GIS . Only these Partners have communicated their GIS expert until today:

Friuli Venezia Giulia: Pietro Rossin (Arpa FVG)

Emilia Romagna: Luisa Perini

Veneto: to be identified

Marche: Matteo Cuicchi

Puglia: to be identified

Abruzzo: to be identified

PGZ: to be identified

Zadar County : to be identified

Ministry of Albania: to be identified

WP3.3 FishGIS: State of the Art

In order to be able to start working efficiently on FISHGIS, all partners must take urgent steps to identify and communicate to the FVG WP coordinator their representative.

As soon as this is done, **ARPA FVG will hold a first restricted meeting where all GIS responsables will be invited**, thus all partners will be able to start, with no delay, all project activities, that are based on data and themes (layers) that will be presented by ARPA FVG today and tomorrow.

WP3.3 FishGIS: ACTION PLAN

By 5/11/2013 all partners must have identified and communicated to Region FVG, WP coordinator both names of their AAB representatives and GIS experts.

By 05.12.2013 ARPA FVG + Region FVG will organize a technical and operational meeting for the start up of activities.

By 31.1.2014 all partners must have verified the availability of the data a in their regions.

By 31.04.2014 web conference for checking the amount of data collected to ARPA FVG System.

By 31.05.2014 all Partners must have filled the template provided by ARPA FVG.

FISHGIS is expected to complete all collection and data ETL to webgis system by September 2014

Ecosea project Staff

Regione Autonoma Friuli Venezia Giulia

- **Marina Bortotto** – Director of Fishery and Haunting Service , member of the ECOSEA Steering Committee.
- **Alberto Fonzo**- Project coordinator , ECOSEA Steering Committee deputy member.
- **Giorgio Micoli**- support staff to project implementation
- **Rossana Giorgi** - Senior expert in marine biology.
member of the AAB.
- **Sara Tuniz**- external expert, financial manager.
- **Junior technician in the Fishery sector** -procurement procedure ongoing.
- **Pietro Rossin** – ARPA expert for GIS.

Pesca e acquacoltura

Alla luce delle peculiarità del settore ittico regionale (produzione di qualità e importante presenza di imprese di trasformazione), la Regione interviene per modernizzare il settore e favorire la gestione condivisa delle risorse nel rispetto dell'ambiente.

Scopri nel dettaglio cosa la Regione fa per il settore.

INCENTIVI E MISURE DI SOSTEGNO

Interventi mirati della Regione e la programmazione comunitaria attraverso il FEP (Fondo Europeo per la Pesca) concorrono a sostenere i livelli di produttività di questo importante settore economico con particolare attenzione alla sostenibilità ambientale.

INTERVENTI REGIONALI

Finanziamenti per costruzione, ampliamento e ammodernamento di impianti di produzione di acquacoltura, costruzione di impianti e immobili, acquisto di nuove attrezzature per la trasformazione e commercializzazione dei prodotti della pesca e dell'acquacoltura.

Credito agevolato

Contributi per: sostenibilità di pesca e itticultura, tecnologie avanzate per l'utilizzo a scopo energetico di prodotti e sottoprodotti delle filiere della pesca e dell'itticultura, per lo sfruttamento di fonti energetiche rinnovabili, per il miglioramento dei processi produttivi e dei mezzi di produzione.

Incentivi in materia di innovazione

Contributi per: sostenibilità di pesca e itticultura, tecnologie avanzate per l'utilizzo a scopo energetico di prodotti e sottoprodotti delle filiere della pesca e dell'itticultura, per lo sfruttamento di fonti energetiche rinnovabili, per il miglioramento dei processi produttivi e dei mezzi di produzione.
